SUBJECT: Statistical Report Required Under 9-26-3-5

This report contains the statistical data required under Indiana Code 9-26-3-5. The data includes crash and fatality totals for 2006. There is comparison of data for 2004, 2005 and 2006 data for persons under 19 years of age. Additionally, we have compared the total fatalities in 2006 to an average of the previous five years. The statute requires ISP to report if the percentage increase is at least seven percent. The change was only 1.49% down from 7.39% last year.

The state police department shall submit a report describing:

(1) the total number of accidents and fatalities involving a person less than nineteen (19) years of age: **2006 Total Crashes 30,773 and Total Fatalities 108**

(2) If possible, whether the accident or fatality described in subdivision (1) occurred on a highway that:

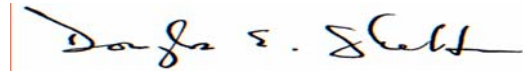

(A) is part of the national system of interstate and defense highways: **825 with 4 deaths**

(B) has four (4) or more lanes; or *See below\**

(C) is divided into two (2) or more roadways; *See below\**

\*Please see pages five and six for charts regarding fatal crashes involving persons under 19 by roadway type.

Respectfully submitted,
